PRESS RELEASE
Clermont-Ferrand – June 24, 2013

COMPAGNIE GENERALE DES ETABLISSEMENTS MICHELIN

Nearly 60% of the Michelin dividend reinvested in new shares

Between May 24 and June 11, 2013, nearly 75% of Michelin shareholders exercised their option to reinvest their dividend in new shares. The dividend was converted into shares on a net basis, i.e. after the applicable taxes and social security contributions withheld at source.

At the Annual Meeting on May 17, shareholders approved the payment of a 2012 dividend of €2.40 per share, with a reinvestment option.

The dividend reinvestment plan resulted in the creation of 4.46 million new shares (representing 2.5% of the capital), which were delivered today and started trading on the NYSE Euronext Paris stock exchange.

The issued shares carry dividend rights from January 1, 2013 and rank pari passu with existing shares. Following settlement, Michelin’s share capital is now comprised of 187,024,562 shares with a par value of €2.00 each.

The cash dividend was also paid today.
